---

Membership is open to any association that has membership of fifty (**50**) or more MSMEs. Membership fees differ according to the level of development of a business association which may change from year to year. There are three types of associations: District Business Association/ Other Business Association; Sector Specific Associations; and Gender Associations.

The procedure is as follows:

1. These associations are taken through a classification process. The class (Between class A and class E) of the association is used to determine the level of intervention of the member association, its needs and annual membership fees. A classification fee of K150, 000=00 is required.
2. Required documentation includes: Certificate of registration, Association's Constitution and list of executive members complete with contact details. Furthermore, a list of general members of the association is required.
